

Safety Data Sheet

According to Regulation 2012 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

Section 1: Identification	
1.1. Product identifier	
Product form	: Mixture
Product Identifier(s)	: Impact Polystyrene Polystyrene HIPS, MIPS
	This MSDS covers all prime grades of Impact Polystyrene including but not limited to:

6## 6##P1 6##P0 CX6### 7## 7##P1 7##P0 CX7### 8##E 8##EP0 8##EP1 8## 8##P1 8##P0 CX8### 9##E 9##EP0 9##EP1 9## 9##P1 9##P0 CX9### rePS-8

where # can be any numeric digit (0-9). This MSDS also covers compounded samples labeled Impact Polystyrene Nxxxxx and Nxxxxx-x, where x can be any numeric digit (0-9).

## 1.2. Recommended use of the chemical and restrictions on use

Use of the substance/mixture

: Manufacture of plastic articles

## 1.3. Details of the supplier of the safety data sheet

Total Petrochemicals & Refining USA, Inc. P O Box 674411 Houston, TX 77267-4411

For non-emergency product information: Phone: 713-483-5000 Email: product.stewardship@total.com

### 1.4. Emergency telephone number

Emergency number

: CHEMTREC: 1-800-424-9300 (Toll Free USA & Canada) / 703-527-3887 (Multiple languages) Total Petrochemicals & Refining USA, Inc.: 1-800-322-3462 (Language: English only)

## Section 2: Hazards identification

2.1. Classification of the substance or mixture

## Classification (GHS-US)

Combustible Dust

## 2.2. Label elements

## GHS-US labeling

Signal word (GHS-US)

Hazard statements (GHS-US)

: Warning

: If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air.

## 2.3. Hazards not otherwise classified

No additional information available

## 2.4. Unknown acute toxicity (GHS-US)

Not applicable

## 2.5. Additional information

Based on conditions common to industrial workplace use of this product

## Plastic bag or liner may cause a static ignition hazard. Spilled pellets may create a slipping hazard. Sweep up spillage and dispose of properly. Skin or eye contact with hot polymer can cause thermal burns. Processing the polymer at high temperatures may form vapors that irritate the eyes and respiratory tract.

Date of issue: 04/30/2015

# Safety Data Sheet

# Section 3: Composition/information on ingredients

## 3.1. Substance

Not applicable

## 3.2. Mixture

Nomo	CAO No.	0/
Name Styrene-butadiene copolymer	CAS No 9003-55-8	<b>%</b> 94.5 - 100

Safety Data Sheet

Other information : Dispose of contaminated material at an authorized site. Notify authorities if product enters sewers or public waters. 6.3. Reference to other sections No additional information available Section 7: Handling and storage 7.1. Precautions for safe handling

	· · · · · · · · · · · · · · · · · · ·		
Precautions for safe handling			Ensure good ventilation of the work station. Wear personal protective equipment. Do not overheat the product. Avoid contact with heated product to prevent burns.
			When handled in bulk quantities, this product and its associated packaging may present a crushing hazard due to the large masses involved, possibly resulting in severe injury or death.
			Combustible dust precautions: Handling this product may result in electrostatic accumulation. Use proper grounding procedures. Use only non-sparking tools. Avoid raising powdered material due to explosion hazard. Prevent the build-up of electrostatic charge. The plastic packaging film used to secure bags of material on pallets can also develop static electricity remove packaging film in an area free from ignitable vapors/dust.
			Processing or material handling equipment may generate dust of sufficiently small particle size, that when suspended in air may be explosive. Dust accumulations should be controlled through a comprehensive dust control program that includes, but is not limited to, source capture, inspection and repair of leaking equipment, routine housekeeping and employee training in hazards. Refer to the latest edition of the National Fire Protection Association (NFPA) 654 publication, "Standard for the Prevention of Fire and Dust Explosions in the Chemical, Dye, Pharmaceutical, and Plastics Industries", for complete discussion on dust explosion prevention and control measures.
Hygiene	measures	:	Do not eat, drink or smoke when using this product. Keep away from food and drink. Always wash hands after handling the product.
7.2.	Conditions for safe storage, including	ng	any incompatibilities
Technica	al measures	:	Ground/bond container and receiving equipment. Electrostatic charges may be generated when emptying sacks. It is recommended that sacks are emptied away from explosive atmospheres.
Storage	conditions	:	Store at room temperature. Protect from heat and direct sunlight. Store in dry, cool, well- ventilated area.

## Section 8: Exposure controls/personal protection

#### 8.1. **Occupational Exposure Limits**

Impact Polystyrene			
USA ACGIH	ACGIH T	WA (mg/m³)	10 mg/m³ (Inhalable fraction) 3 mg/m³ (Respirable Particles)
USA ACGIH	Remark (	ACGIH)	Particulates, not otherwise classified
8.2. Exposure co	ontrols		
Appropriate engineering	g controls	If handling results in du	ble eye wash stations and safety showers. Ensure adequate ventilation. st generation or high temperatures, local exhaust ventilation should be exposure to dust or decomposition products does not exceed the d levels.
Hand protection		: Use insulated gloves w	hen handling this material hot.
Eye protection		: Safety glasses.	
Skin and body protectio	n	: Wear suitable protective	e clothing. Safety foot-wear.
Respiratory protection		: In case of insufficient ve	entilation, wear suitable respiratory equipment.
Other information		recommended that a lo	posure to dust, vapour or fumes (during product processing), it is cal exhaust system is placed above the conversion equipment (a fume area must be properly ventilated.

0			an an an aire at all a 100%C

Softening point

: approximately 100°C

## Section 10: Stability and reactivity

#### 10.1. Reactivity

Flowing product can create electrical charge, resulting sparks may ignite dust or cause an explosion in some concentration ranges.

#### 10.2. **Chemical stability**

The product is stable at normal handling and storage conditions.

#### 10.3. Possibility of hazardous reactions

Dust may form explosive mixture in air.

#### 10.4. Conditions to avoid

To avoid thermal decomposition, do not overheat.

#### 10.5. Incompatible materials

Strong oxidizing agents.

#### 10.6. Hazardous decomposition products

Hazardous decomposition products formed under fire conditions: carbon monoxide, carbon dioxide, toxic fumes.

Exposure of polystyrene to extremely high temperatures (315°C or higher) for extended periods of time may cause partial decomposition. Chemicals that may be released include styrene monomer, benzene, and other hydrocarbons.

Section 11: Toxicological infor	mation	
11.1. Information on toxicological	effects	
Likely routes of exposure	: Inhalation. Ingestion. Skin and eye contact.	
Acute toxicity	: Not classified	
White mineral oil, petroleum (8042-47-	5)	
LD50 oral rat	> 5000 mg/kg	
Skin corrosion/irritation	: Not classified	
Serious eye damage/irritation	: Not classified	
Respiratory or skin sensitization	: Not classified	
Germ cell mutagenicity	: Not classified	
Carcinogenicity	: Not classified	
Styrene-butadiene copolymer (9003-55	j-8)	
IARC group	3 - Not classifiable	
Reproductive toxicity	: Not classified	
Date of issue: 04/30/2015	EN (English US)	4/6

## Safety Data Sheet

Section 12: Ecological information	
Aspiration hazard	: Not classified
Specific target organ toxicity (repeated exposure)	: Not classified
Specific target organ toxicity (single exposure)	: Not classified

## 12.1. Toxicity

Ecology - general

: The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.

## 12.2. Persistence and degradability

Impact Polystyrene	
Persistence and degradability	This material is persistent in the environment. Not readily biodegradable.
BOD (% of ThOD)	Below detection limit
12.3. Bioaccumulative potential	
Impact Polystyrene	
Bioaccumulative potential	This product is not expected to bioaccumulate through food chains in the environment.
12.4. Mobility in soil	
Impact Polystyrene	
Ecology - soil	low mobility.
12.5 Other advarage offects	

**12.5.** Other adverse effects No additional information available

# Section 13: Disposal considerations 13.1. Waste treatment methods Waste treatment methods : This product has been evaluated for RCRA characteristics and does not meet the criteria of a hazardous waste if discarded in its purchased form. Under RCRA, it is the responsibility of the user of the product to determine at the time of disposal, whether the product meets RCRA criteria for hazardous waste. Transfer to a safe disposal area in accordance with federal, state, and local regulations. Waste disposal recommendations : Recycle the material as far as possible. Additional information : May be used as fuel in suitably designed installations.

## Section 14: Transport information

US Transport (DOT) for Bulk Shipments (Non-Bulk Shipments May Differ)

Not a DOT controlled material

## Transport by sea (IMDG)

Not an IMDG controlled material

## Air transport (IATA)

Not an IATA controlled material

## Section 15: Regulatory information

## 15.1. US Federal regulations

## Impact Polystyrene

TSCA

All components of this product are listed or exempted from listing on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory

**SARA 313** 

This product contains no chemicals in excess of the applicable de minimis concentration that are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372 (Table 372.65).

SARA Section 311/312 Hazard Classes	Fire hazard
Export Control Classification Number (ECCN):	EAR99 (No License Required)

Safety Data Sheet

## 15.2. International regulations

CANADA Impact Polystyrene

WHMIS Classification

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the CPR Uncontrolled product according to WHMIS classification criteria

## National inventories

Listed on the Canadian DSL (Domestic Sustances List)

## 15.3. US State regulations

California Proposition 65 - This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity, not limited to any that may be listed below.

## Section 16: Other information

NFPA (	(National	Fire	Protection	Association)

NFPA health hazard	:	0
NFPA fire hazard	:	1
NFPA reactivity	:	0

## **HMIS III Rating**

-	
Health	: 0
Flammability	: 1
Physical Hazard	: 0
Personal Protection	: See section 8 of SDS

US OSHA LABEL as specified under 29 CFR §1910.1200 (f)

# Impact Polystyrene

Total Petrochemicals & Refining USA, Inc. PO Box 674411 Houston, TX 77267-4411 USA Tel. 713-483-5000 or 1-877-871-2709

## Warning

If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air. Supplemental Information: Based on conditions common to industrial workplace use of this product

Plastic bag or liner may cause a static ignition hazard.

Spilled pellets may create a slipping hazard. Sweep up spillage and dispose of properly.

Skin or eye contact with hot polymer can cause thermal burns.

Processing the polymer at high temperatures may form vapors that irritate the eyes and respiratory tract.
